SUZANNE M. WHITMAN

Vice President, Technology

As Vice President, Director of Technology, Sue brings more than 25 years of experience in the field of technology, software development and real estate management. Sue joined IRGRA in 2008 and has built the technology team and infrastructure to support our growth and success. Her dedication and work ethic make her a valuable member of the IRG Realty Advisors team.

CAREER OVERVIEW

Sue began her career with IRG in 2008 as the single IT support, managing all hardware and software. During her 13 years with IRGRA, she established the Technology Department, which includes the Network and Help Desk group, the Applications Development and Support group and the Analytix Dashboard group. In addition to their daily tasks her department provides over 20 technology classes to IRGRA personnel each month. The Technology Department manages the hardware, software and network for IRGRA personnel in 32 states and 5 corporate offices, including our parent company in California. She directs her staff toward assisting and developing sound tools that exceed our employees needs and the continuing technical education of all our employees.

Sue has over 20 years working in the Real Estate software arena. Prior to joining IRGRA, she worked as a real estate software consultant for companies such as Key Bank, Goodyear Tire & Rubber, CVS Pharmacy, Hollywood Video and Staples. She also worked at MRI Software as a Product Manager to develop a new offering for Corporate Real Estate (CRE) which is still being offered for occupiers and lessees today.
